

FORO SOCIAL FRONTERIZO

Otro mundo es posible

Border Social Forum **Ciudad Juarez, Chihuahua Mexico** **(Across El Paso, TX)** **May 1-6, 2006**

*Otra barrio, Otra frontera, Otro mundo, es necesario
y Contigo es Posible!*

Invitation:

Your organization is invited to be a part of organizing the *Border Social Forum* to take place in Cd Juarez, Chihuahua, Mexico on May 1-7, 2006. Your presence, support and solidarity is needed to make it possible.

Site:

The **Border Social Forum** is planned for **May 1-7, 2006**. The dates came into being because May 1 is International Workers Day, a holiday (except US) in Mexico enabling many people to participate, and 'Cinco de Mayo' (May 5th) is also a national Mexican holiday. 'Cinco de Mayo' represents the defeat of French imperialist forces that invaded Mexico in 1850's forcing Don Benito Juarez to exile in Cd Juarez, Chihuahua. Don Benito Juarez, the first Indigenous President in Mexico will celebrate 200 years since his birth in March 21.

The common meeting ground for the Border Social Forum will be Cd Juarez, Chihuahua (across El Paso, TX) also the scene of a *femicide* where more than 500 young women have been brutally assassinated and their bodies dumped in the desert sands.

Idea:

The Border Social Forum came out of an agreement between global south & global north social movement organizations and in particular from a discussion to develop a movement to '*Tear Down the Wall of Death*' that Bush is pushing to complete and thus seal the US-Mexico border physically. Social movements from Mexico and the south will mobilize north to Cd. Juarez and groups from the US and Canada will go south to converge in Cd. Juarez. The goal of the Border Social Forum is to create a space for the 'integration' of the social movements from the border bi-national region and to connect the social movements of the global north and global south.

Campaign:

The mobilizing and the campaign to '*tear down the wall of death*' will *kick-off* or launch on March 21, 2006 to co-celebrate Don Benito Juarez, Indigenous president of Mexico whose slogan was "as in people and nations, peace is respect for the right of others".

Martyrs:

The social justice movement consider the victims as '*martyrs*' of the struggle against the repression, oppression, exploitation and violence brought on by US immigration policy and law, border patrol, vigilantes, law enforcement, Homeland Security, and their declared war on migrant workers crossing the US-Mexico borders.

These migrant worker and Indigenous people are *martyrs* of the global justice struggle also die under the repressive forces of the Mexican government in the Southern border with Central America. The repression and death of thousands in the last ten years has raised the question that the Mexican government is acting at the direction of the US government to stop the migrants at the southern border.

Registration:

Registration will be done through Cipriana Jurado Herrera at CISO (Centro de Investigacion & Solidaridad Obrera) who is our logistical support person native to Cd Juarez.
